SANDERS|FRITOM CHOOSES AEOLUS

Preventing downtime with the Aeolus NEO Allroads

Sanders|Fritom is an innovative family business. They are at the forefront of innovation in the logistics sector. For example, Sanders Fritom was one of the first logistics companies in the Netherlands with integrated on-board computers. Also, the material is the latest of the latest. This ensures that Sanders Fritom is a reliable party that leads the way in its sector.

In 2008, Sanders Logistics was taken over by a leading logistics player on the Dutch market: the Fritom Group. From that moment on it is Sanders|Fritom. Today, Fritom is a group of seven logistics companies with ten branches: each with its own identity and specialism. Thanks to the cooperation between the independent companies, the best solution can be offered for every logistical challenge.

NEO SERIES

WITH 100% WARRANTY!

AEOLUS

NO MATTER WHAT.

Maurice Brisko from Sanders|Fritom: The good price in combination with a 2-year warranty has ensured that we have mounted Aeolus tires on our trailers. We saw that the quality of Aeolus is just as good as the premium brand we had before. This has ensured that we have largely switched to Aeolus since last year.

The results

Type:	Aeolus NEO Allroads
Use:	trailer and truck
Truck mileage:	250,000 km
Trailer mileage:	300,000 km

2 years 100% warranty

With the Aeolus NEO series you have top quality for a competitive price. A fact that can benefit not only you, but also your customers.

The quality of the Aeolus NEO series is so good that we now dare to emphasize this with a 100% warranty for 2 years.
